Colours from Base Elements: Rust Red Light Blue Light Grey Gold Light Brown

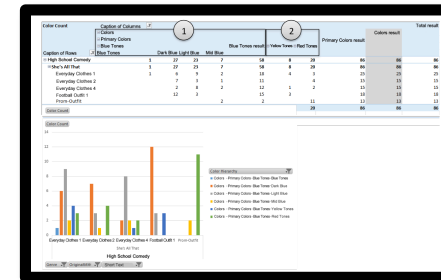

Dominant Function: Business Clothes

Functions of Base Elements: Business Clothes

Dominant Status: tidy

Status from Base Elements: tidy clean

Character Traits: ☐ neat ☐ know-all ☐ reputable ☐ accurate

Defining “Digital Humanities”

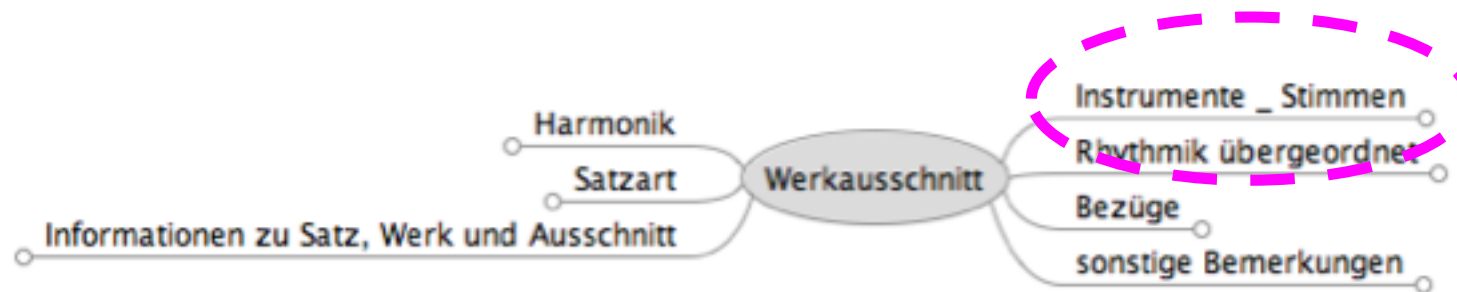

“Digital humanities is a **diverse** and **still emerging** field that encompasses the practice of humanities research in and through **information technology**, and the exploration of how the **humanities** may evolve through their engagement with technology, media, and computational methods.”

(Digital Humanities Quarterly*)

Conclusion

Benefits and Limitations of MUSE4Music

■ Benefits:

- Controlling the historians' subjectivity
- Allowing complex queries on huge amount of data
- Finding new candidates for expressive types, as well as new solutions as examples for a expressive type

■ Limitations:

- the focus on loud music
- the huge amount of potential material
- still rather limited capacity of the automated music analysis tools, very time consuming data capturing

The End
